

AQUA DRI

Portable Air Mover/Carpet Dryer

EDIC's brand new Aqua Dri hosts a series of exclusive features that put it far ahead of the pack and make it indispensable for quick drying of carpet and hard floors. It comes with the option of a specially designed transport handle (patent pending) that doubles as a carpet clamp. Unfold it and wheel the unit along behind you or adjust it down to clamp carpet in place for thorough drying. The Aqua Dri's unique body design makes it super easy to stack for storage or transport. There are two models to choose from: The standard unit offers three-speed drying with a ½ HP motor and 2400 CFM. The larger Aqua Dri Pro offers three-speed

drying in a choice of ½ HP (2700 CFM) or ¾ HP (3000 CFM) for the ultimate in power. Both models can be easily adjusted to four different positions for drying carpets, furniture, curtains, ceilings—you name it! Transport handle and wheels are optional.

SPECIFICATIONS 3004AD/3005AD/3006AD
