

# Minuteman 290 Vacuum Series

*Powerful, Economical and Built to Last.*

**Minuteman's durable 290 Vacuum Series cleans circles around the competition and is built to last.**

**Minuteman<sup>®</sup>**

# Reliable, Durable and Powerful, These Wet/Dry Vacuums Mean Variety and Value.

A wide variety of sizes and all of Minuteman's latest patented features make the 290 series vacuums a value beyond comparison. Available in 4, 6, 15 and 20 gallon tank sizes, these vacuums feature Minuteman's patented self-sealing intake that ensures a positive vacuum seal while still allowing the hose to swivel. Each lid assembly is acoustically designed to minimize noise and is powered

by rugged Ametek Lamb® motors. Plus, adding either single or twin motors that operate separately or simultaneously will pick up even the most stubborn liquid or dry debris.

All tanks are constructed of durable polyethylene, which is virtually indestructible, and include a seven year warranty. The 15 and 20 gallon units have optional Big Gulp™ wide area squeegee for picking up large amounts of liquid.

For even greater cleaning, the 290 Vacuum Series uses embossed polyester filter bags which are 99.9% efficient at 3.0 microns, providing 50% more filtration area than standard, smooth bags.

**Use any of the 290 Vacuum Series with confidence day after day in hospitals, restaurants, schools, offices and factories. Select the size and type best suited to your cleaning needs.**

The 20 gallon also offers the "Tip N Pour" which lets the operator empty the tank quickly and easily.

The 15 gallon tank encloses the rear wheels and comes standard with a convenient drain plug.

Each 290 Series Vacuum comes complete with tool kit.

- Wet/Dry Tool Kit – 1½" (4 cm)
- Dry Only Tool Kit – 1¼" (3 cm)

New universal intake features a unique patented self-sealing metal intake which is more durable than plastic and offers more support around the seal for maximum suction power.
