

ET™

Powerful Extraction Tool

*Precision cleaning on stairs,
upholstery, carpets, wall
dividers and more.*

Minuteman®

A Powerful Extraction Tool With Precision Cleaning.

Use the ET on:

- Stairs
- Upholstery
- Fine Rugs
- Office Dividers
- Automobiles
- Boat Interiors

ET features a 32" extension wand accessory for stand-up cleaning which increases operator comfort.

Minuteman's powerful Extraction Tool, ET™, is designed to enhance carpet spotting by combining a lightweight, compact, motorized powerhead with precision extraction. Until now, this type of performance was only found in large, bulky power brush tools for extractors.

The ET features a two brush speed design for both upholstery and commercial carpet applications and includes a stiff nylon brush for commercial uses. An optional soft nylon brush for fine rugs and upholstery is available as an accessory. Brushes are easy to change with the turn of a knob and simply slide out the shaft.

The lightweight, compact ET tool is ideal for cleaning virtually anywhere.

The ET's 3.25 lb. weight is maintained by its construction of durable glass reinforced nylon housing, plus a built-in handle for increased use. Or, with a quick connection, add the optional 32" stainless steel wand accessory which when combined with the 8 foot solution/recovery hose allows this tool to be used when standing up.

Match the ET with the Gotcha®, Ambassador Jr. Or the 50 PSI ambassador that includes a unique plug adapter. The ET may also be used with a standard 115 volt wall plug on any 50 PSI extractor.
