Treat as an oil fire. Water may cause fire to float and spread. Use carbon dioxide, dry chemical or foam.

Special Fire Fighting Procedures - Use water spray to keep containers cool and vapors down. Do not allow runoff to enter sewers or public watercourses. Wear self-contained breathing apparatus in chemical fires.

Unusual Fire and Explosion Hazards -

Aerosol container (pressurized) may burst if heated over 130° F. Combustible contents.

SECTION VI - Health Hazard Data

Route(s) of Entry	Eyes?	Inhalation?	Skin?	Ingestion?
	Yes	Yes	Yes	Yes

Health Hazards (Acute and Chronic) - Caution. Causes moderate eye irritation. May cause skin irritation. Unlikely to be swallowed, but contains petroleum distillates which may present an aspiration hazard if swallowed. May be harmful if inhaled. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Follow label instructions and good chemical hygiene practices to avoid these hazards.

Carcinogenicity:	NTP?	IARC Monographs?	OSHA Regulated?
None listed	No	No	No

Signs and Symptoms of Exposure -

Redness, dryness, scaling or itching skin. Excessive inhalation of vapors may cause headaches, stupor, or irritation of throat and eyes. Swallowing may cause irritation of stomach and intestines resulting in nausea and vomiting.

Medical Conditions Generally Aggravated by Exposure - Pre-existing skin and kidney conditions may be adversely affected. Follow good chemical hygiene practices to avoid this hazard.

Emergency and First Aid Procedures: **Eyes** - Flush with plenty of water (for at least 15 minutes lifting eyelids to insure complete removal.) Call a physician if irritation persists. **Ingestion** - Unlikely from aerosol can. If large quantities are swallowed, call a physician or poison control center immediately. Get immediate medical attention. **Inhalation** - Get to fresh air. If breathing has stopped, qualified personnel should administer artificial respiration. **Skin** - Wash thoroughly with soap and water. Remove contaminated clothing and shoes. Launder contaminated clothing before reuse. Call a physician if irritation arises and persists. Note to physician: Contains petroleum distillates (>80%).

SECTION VII - Precautions for Safe Handling and Use**Steps to be Taken in Case Material is Released or Spilled -**

Caution, slip hazard. Wipe up small spills promptly. Thoroughly clean any residues with an effective cleaning compound. For large spills, isolate traffic and ventilate area. Eliminate all ignition sources. Wear protective gear as necessary. Dike to prevent spread. Prevent from entering drains, sewers or any watercourse or waterway. Pick up with an absorbent material. Put in a suitable container for proper disposal. This product is toxic to fish and aquatic invertebrates.

Waste Disposal Method -

Consult local, state and federal regulations. Replace cap. Wrap (empty) container in several layers of newspaper and discard in trash. Do not incinerate or puncture. Can may be disposed of with other recyclables where local law permits.

Precautions to be Taken in Handling and Storing - Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling. Do not swallow. Avoid inhaling mist or vapors. Use with adequate ventilation. Keep away from heat, sparks and open flame. Exposure to temperatures above 130° F may cause bursting. Store in a cool (under 130° F) dry location away from heat, sparks, open flame, and direct sunlight.

Other Precautions - Follow label directions carefully. Keep out of reach of children. Do not deliberately concentrate and inhale vapors. Direct spray away from face. Replace cap when not in use. Do not use around ignition sources such as heat, sparks, open flame, static electricity, electric motors, welding arcs, etc. Do not puncture or incinerate container. Do not smoke while using. Do not apply directly to water.

SECTION VIII - Control Measures

Respiratory Protection (Specify Type) - Not usually necessary. Use with adequate ventilation. If PELs or TLVs are exceeded (see Section II), follow NIOSH\MSHA recommendations.

Ventilation	Local Exhaust	Not usually needed	Special	None
	Mechanical (General)	Acceptable	Other	None

Protective Gloves - Not usually needed. If direct contact is possible, wear chemical resistant. **Eye Protection** - Yes, goggles or approved safety glasses (ANSI Z87)

Other Protective Clothing or Equipment -

Not usually necessary. If direct contact is possible, wear apron, boots, face shield, gloves, etc. as necessary.

Work/Hygienic Practices -

Normal. Wash thoroughly before eating, drinking, smoking, using restrooms, etc.
