

# MATERIAL SAFETY DATA SHEET - U.S.

## SOLVENT CLEANER B123

Professional Chemicals Corporation

Revision Date: May 24, 2001 Revision 2.0

---

### Section 1: Chemical Product and Company Information

---

**Product Name:** Solvent Cleaner

**Product Number:** B123

**Manufacturer:** Professional Chemicals Corp  
325 S. Price Road  
Chandler, AZ USA 85224

**Emergency Telephone:**  
(800) 535-5053 [Infotrac]

---

### Section 2: Composition / Information or Ingredients

---

<u>Hazardous Ingredient</u>	<u>CAS</u>	<u>OSHA PEL</u>	<u>OSHA HAZARD</u>
Aliphatic hydrocarbons	064742-48-9	N/E	Irritant
Glycol Ether	111109-77-4	N/E	Flammable

---

### Section 3: Hazard Identification

---

#### Emergency Overview

**Appearance:** Clear Liquid

**Odor:** Citrus

**Flashpoint:** 131°F

Warning! Combustible liquid. Vapors formed from this product are heavier than air and may travel along the surface to a distant source of ignition and flashback. Explosive vapor-air mixtures may be formed above the flash point or between the lower and upper flammable limits. Hot organic chemical vapors or mists are susceptible to sudden spontaneous combustion when mixed with air. Ignition may occur at temperatures below the autoignition or ignition temperature.

**Eye Contact:** May cause moderate eye irritation; injury to eye tissue unlikely

**Skin Contact:** Frequent or prolonged contact may cause irritation. Skin contact may aggravate an existing dermatitis condition.

**Inhalation:** When used according to label instructions, this product should not cause adverse effects.

**Ingestion:** Small amounts swallowed incidental to normal handling operations is not likely to cause injury.

**NFPA Hazard Rating:** Health 1    Flammability 2    Reactivity 0

---

### Section 4: First Aid Measures

---

**Eye Contact:** Immediately irrigate with flowing water continuously for 15 minutes. If irritation persists consult medical personnel.

**Skin Contact:** Wash with soap and water. If irritation persists consult medical personnel.

**Inhalation:** Move to fresh air. If irritation persists consult medical personnel.

**Ingestion:** If swallowed, DO NOT induce vomiting unless directed to do so by medical personnel. Seek medical attention.

# MATERIAL SAFETY DATA SHEET - U.S.

## SOLVENT CLEANER B123

Professional Chemicals Corporation

Revision Date: May 24, 2001 Revision 2.0

---

### Section 5: Fire-Fighting Measures

---

**Flashpoint:** 131°F (closed cup)      **Upper Flammable Limit (% by volume):** 5.0%  
**Autoignition Temperature:** N/D      **Lower Flammable Limit (% by volume):** 0.7%

**General Hazard:** Flammable liquid. Vapors formed from this product are heavier than air and may travel along the surface to a distant source of ignition and flashback. Explosive vapor-air mixtures may be formed above the flash point or between the lower and upper flammable limits. Hot organic chemical vapors or mists are susceptible to sudden spontaneous combustion when mixed with air. Ignition may occur at temperatures below the autoignition or ignition temperature.

**Fire Fighting Procedures:** Wear self-contained breathing apparatus and full protective clothing. Use water spray to cool nearby containers and structures exposed to fire.

**Hazardous Decomposition Products:** During a fire, smoke may contain the original material in addition to unidentified toxic and/or irritating compounds. Hazardous combustion products may include and are not limited to carbon dioxide and carbon monoxide.

---

### Section 6: Accidental Release Measures

---

Keep all unnecessary personnel away. Eliminate sources of ignition. Prevent additional discharge of material. Prevent liquid from entering sewers, watercourses, or low areas. Contain and absorb spilled liquid with sand or earth. Do not use combustible materials such as sawdust. Consult an expert on disposal of recovered material and ensure conformity to local disposal regulations.

---

### Section 7: Handling and Storage

---

Store out of reach of children; keep container closed. All five-gallon and larger containers should be grounded. Handle open containers with care; store in a cool well-ventilated place away from strong oxidizing or alkaline products and ignition sources.

---

### Section 8: Exposure Controls / Personal Protection

---

**Engineering Controls:** Normal room ventilation is satisfactory for limited use.

**Eye Protection:** Safety glasses

**Skin Protection:** Use gloves impervious to this material when prolonged or frequently repeated contact could occur.

**Respiratory:** No respiratory protection should be needed.

**Exposure guidelines:** N/E

MATERIAL SAFETY DATA SHEET - U.S.  
**SOLVENT CLEANER B123**  
Professional Chemicals Corporation

Revision Date: May 24, 2001 Revision 2.0

---

**Section 9: Physical and Chemical Properties**

---

**Appearance/Physical State:** Clear Liquid  
**Vapor Pressure:** N/D  
**Boiling Point:**  $\approx$  170°F  
**Specific Gravity:** 0.8  
**Solubility in Water:** N/D

**Odor:** Citrus  
**Vapor Density:** 4.5 - 4.9  
**Freezing Point:** N/D  
**pH:** N/A

---

**Section 10: Stability and Reactivity**

---

**Chemical stability:** Stable

**Incompatibility with other substances:** Strong oxidizing or alkaline agents

**Reactivity:** Aluminum and other reactive metals

**Hazardous Decomposition Products:** Exposure to fire may liberate carbon dioxide, carbon monoxide, organic acids, and other unidentified thermal decomposition products from this product or its packaging.

---

**Section 11: Toxicological Information**

---

**Route of Entry:** Eye contact, Skin absorption/contact, Inhalation and Ingestion

**Effects of Acute Overexposure to Product:**

**Eye Contact:** May cause temporary eye irritation, redness, tearing and blurred vision

**Skin Contact:** May cause skin irritation, defatting and dermatitis

**Inhalation:** Inhalation of mist or vapor may cause temporary respiratory irritation; temporary central nervous system effects including dizziness, weakness, fatigue, nausea, headache and possible unconsciousness.

**Ingestion:** May cause temporary gastrointestinal irritation with nausea, vomiting and diarrhea  
aspiration into the lungs can cause chemical pneumonitis.

**Effects of Chronic Overexposure to Product:**

**Exposure limits:** N/D for mixture

**Teratogenicity:** None

**Reproductive toxicity:** None

**Sensitization to Product:** None known

**Mutagenicity:** None

**Carcinogenicity:** None

---

**Section 12: Ecological Information**

---

Please refer to Section 6 for information regarding accidental releases and Section 15 for regulatory reporting information.

**MATERIAL SAFETY DATA SHEET - U.S.**  
**SOLVENT CLEANER B123**  
Professional Chemicals Corporation

Revision Date: May 24, 2001 Revision 2.0

---

**Section 13: Disposal Considerations**

---

Dispose of in accordance with federal, state and local regulations. Prevent run-off to sewers.

---

**Section 14: Transportation Information**

---

**Shipping paper description:** NONE-EXEMPT

**Labeling:** NONE-EXEMPT

**Markings:** CONSUMER COMMODITY, ORM-D

**Placard:** NONE-EXEMPT

**Packaging:** Inner package not over 5.0 liters (1 gallon) each, in strong outer packaging. UN specification packaging not required.

**Note:** "Consumer Commodity - ORM-D" exemption applies only to ground shipments. Additional compliance steps are required for air shipments.

---

**Section 15: Regulatory Information**

---

**TSCA:** All chemicals used in this product are listed

**CERCLA:** No

**SARA Title III:** Under the provisions of Title III, Sections 311/312 of the Superfund Amendments and Reauthorization Act, this product is classified into the immediate health hazard category.

The chemicals used in this product may be subject to the provisions of the Community Right-to Know Act (40 CFR 370 - 374). If reporting requirements are met, please contact the Environmental, Health and Safety (EHS) Manager for information regarding this product.

---

**Section 16: Other Information**

---

This document is prepared in accordance with 29 CFR 1910.1200. The purpose of this section is to ensure that the hazards of all chemicals produced or imported are evaluated, and that information concerning their hazards is transmitted to employers and employees.

All information appearing herein is based upon data obtained from the raw material manufacturer and/or recognized technical sources. While the information above is believed to be true and accurate, the author makes no representations as to its accuracy or sufficiency. Conditions of use are beyond the manufacturer's control; therefore the users are responsible to verify this data under their own particular conditions, applications and regulations to determine if the product is suitable for their particular purposes. The users assume all risks of product use, handling, disposal, reliance upon, publication or use of the information contained herein. This information applies only to the product designated above and does not necessarily apply to its use in combination with other materials, products, chemical compounds, structures or processes.
