Material Safety Data Sheet

May be used to comply with OSHA's Hazard Communication Standard, 29 CFR 1910.1200. Standard must be consulted for specific requirements.

Identity (As Used on Label and List)
13232, 13201, 13225, 13205, 13294, 13235, 13255
Glycolized Air Deodorizer

SECTION I
Manufacturer's Name
ITW Dymon
Address (Number, Street and City, State, and ZIP Code)
805 EAST OLD 56 HIGHWAY
OLATHE, KANSAS 66061
Emergency Telephone Number
1-800-535-5053
Telephone Number for Information
1-913-397-9889
Date Prepared
April 3, 2000
Signature of Preparer (Optional)
Regulatory Dept.

SECTION II - Hazardous Ingredients/Identity Information

<table>
<thead>
<tr>

This product is not known to contain any compound in concentrations requiring reporting under SARA Title III Section 313.

TSCA: All ingredients are on the TSCA inventory or are not required to be listed on the TSCA inventory.

Any substance listed as hazardous by the States of California, Florida, Illinois, Michigan, New Jersey, Ohio, Pennsylvania or Texas is described above if known present in regulated concentrations.

SECTION III - Physical/Chemical Characteristics

<table>
<thead>
<tr>
<th>Boiling Point Initial</th>
<th>175°F</th>
<th>Specific Gravity (H₂O = 1) @70°F</th>
<th>0.96</th>

</tbody>
</table>

Extinguishing Media -
Use carbon dioxide, dry chemical, halon, polar or alcohol foam, or water spray. Water may be ineffective.

Special Fire Fighting Procedures -
Keep containers cool and vapors down with water spray. Prevent runoff from entering sewers and public waterways. Wear SCBA in chemical fires.

Unusual Fire and Explosion Hazards - Flammable liquid that may be ignited by heat, sparks, flame, static electricity, pilot lights, etc. Vapors may travel considerable distances to an ignition source then ignite, flashback or explode.
SECTION V - Reactivity Data

Stability | Unstable | Stable | Conditions to Avoid - Extreme heat and freezing temperatures

Incompatibility (Materials to Avoid) - Strong acids, bases and oxidizers, anhydrides, isocyanates, acetaldehyde, chlorine, ethylene oxide, hydrogen peroxide, aluminium and organometallic contaminants.

Hazardous Decomposition or Byproducts - Carbon dioxide, carbon monoxide, acrid smoke and irritating fumes.

Hazardous Polymerization | May Occur | Will Not Occur | Conditions to Avoid - None known

SECTION VI - Health Hazard Data

Route(s) of Entry | Eyes? | Inhalation? | Skin? | Ingestion?
Yes | No | No | Yes

Health Hazards (Acute and Chronic) - Warning. Flammable liquid and vapor. Causes eye irritation. Harmful if swallowed. May cause skin irritation. May cause respiratory tract irritation. Overexposure may induce central nervous system effects. Repeated or prolonged occupational overexposure may cause dermatitis or induce Painters Syndrome.

Carcinogenicity: | NTP? | IARC Monographs? | OSHA Regulated?
None known | No | No | No

Signs and Symptoms of Exposure - Redness, tearing, swelling or burning in eyes. Headache, drowsiness, dizziness, fatigue, loss of coordination.

Medical Conditions Generally Aggravated by Exposure - Pre-existing skin, lung, kidney and liver disorders may be adversely affected. Follow good chemical hygiene practices when using this product.

Emergency and First Aid Procedures: - Eyes - Flush with plenty of water for at least 15 minutes lifting eyelids to insure complete removal. See a physician immediately. - Ingestion - Call a physician or poison control center immediately. Contains triethylene glycol (ca. 5%) which is toxic in large doses. - Inhalation - Get to fresh air. If breathing has stopped, qualified personnel should administer artificial respiration. - Skin - Flush with plenty of water for at least 15 minutes. If irritation arises and persists, call a physician.

SECTION VII - Precautions for Safe Handling and Use

Steps to be Taken in Case Material is Released or Spilled - Caution, slip hazard. Wipe up small spills with a rag or other absorbent material. For large spills, isolate and ventilatate area. Eliminate all ignition sources. Wear protective gear as necessary. Dike to prevent spread. Do not allow to enter drain, sewers, etc. Pick up on an absorbent material and put in suitable container for proper disposal.

Waste Disposal Method - Consult local, state, and federal regulations. Triple rinse empty container then offer for recycling, reuse, or reconditioning.

Precautions to be Taken in Handling and Storing - Do not use or store around ignition sources such as heat, sparks, flame, static electricity, pilot lights, etc. Do not get in eyes. Avoid contact with skin and clothing. Do not swallow. Wash thoroughly after handling. Avoid inhaling mist or vapors. Do not smoke while using.

Other Precautions - Follow label directions carefully. Keep out of reach of children. Keep container tightly sealed when not in use. Do not contaminate water, food, or feed by use or storage. Do not intentionally concentrate and inhale vapors. Empty container may retain flammable vapors. Keep from freezing.

SECTION VIII - Control Measures

Respiratory Protection (Specify Type) - Not usually necessary. Use with adequate ventilation. Use NIOSH/MSHA approved respirator if PELs or TLVs are exceeded.

Ventilation | Local Exhaust | Mechanical (General) | Non
Not usually needed | Special | None

Protective Gloves - Not usually needed. Wear impervious if contact possible.

Eye Protection - Yes, approved safety glasses (ANSI Z87) or goggles.

Other Protective Clothing or Equipment - Not usually needed. If direct or prolonged contact is possible, wear apron, boots, face shield, etc., as required.

Work/Hygienic Practices - Normal. Wash hands after use and before eating, drinking, smoking, using restrooms, etc.
