Material Safety Data Sheet

May be used to comply with OSHA’s Hazard Communication Standard, 29 CFR 1910.1200. Standard must be consulted for specific requirements.

Identification (As Used on Label and List)   EPA Reg. No. 11694-110
18420 The End.™

SECTION I

Manufacturer’s Name
ITW Dymon

Emergency Telephone Number
1.800.535.5053

Address (Number, Street, City, State, and ZIP Code)
805 EAST OLD 56 HIGHWAY

Telephone Number for Information
1.913.397.9889

OLATHE, KANSAS 66061

Date Prepared
April 3, 2000

Signature of Preparer (Optional)
REGULATORY DEPT.

SECTION II – Hazardous Ingredients/Identity Information

<table>
<thead>

This product is not known to contain any compound listed and in quantities requiring reporting under SARA Title III Section 313.

TSCA: All ingredients are on the TSCA inventory or are not required to be listed on the TSCA inventory.

Any substance listed as hazardous by the States of California, Massachusetts, New Jersey or Pennsylvania is described above if known present in regulated concentrations.

SECTION III – Physical/Chemical Characteristics

<table>
<thead>

</table>

Appearance and Odor -
A thick white opaque liquid that has a characteristic insecticide odor.

SECTION IV - Fire and Explosion Hazard Data

USA Flame Projection Test (ASTM D-3065) - None - No flashback

<table>
<thead>
<tr>
<th>Flammable Limits</th>
<th>LEL</th>
<th>UEL</th>

</tbody>
</table>

Extinguishing Media -
Treat as an oil fire. Floating fire may spread. Use carbon dioxide, foam, or dry chemical.

Special Fire Fighting Procedures - Use water spray to keep containers cool and vapors down. Do not allow runoff to enter sewers or public watercourses. This product is toxic to fish. Wear self-contained breathing apparatus in chemical fires.

Unusual Fire and Explosion Hazards -
Aerosol container (pressurized) may burst if heated over 130 °F. Contains combustible liquids.
SECTION V - Reactivity Data

Stability | Conditions to Avoid
--- | ---
Unstable | Extreme heat, direct sunlight, sources of ignition.
Stable | X

Incompatibility (Materials to Avoid) -
Strong oxidizing and strong reducing agents, strong mineral acids, oxygen, chlorine, permanganates, and dichromates.

Hazardous Decomposition or Byproducts -
Carbon dioxide, carbon monoxide, smoke, soot and various organic oxidation by-products.

Hazardous Polymerization | Conditions to Avoid
--- | ---
May Occur | - None known
Will Not Occur | X

SECTION VI – Health Hazard Data

Route(s) of Entry | Eyes? | Inhalation? | Skin? | Ingestion?
--- | --- | --- | --- | ---
Eyes? | No | Yes | No | Yes

Health Hazards (Acute and Chronic) - Caution. Harmful if inhaled. May be harmful if inhaled or swallowed. May cause skin irritation. Excessive exposure to vapors in inadequately ventilated areas may induce anesthetic properties. Follow good chemical hygiene practices when using this and other insecticidal products.

Carcinogenicity:
NTP? | IARC Monographs? | OSHA Regulated?
--- | --- | ---
No | No | No

Signs and Symptoms of Exposure -
Irritation of nose, throat or respiratory tract. Redness or irritation of skin or eyes. Overexposure to vapors may cause drowsiness, dizziness, nausea, loss of coordination or consciousness (extreme conditions) or fatigue.

Medical Conditions Generally Aggravated by Exposure -
Slight skin irritation to those with sensitive skin. Follow good chemical hygiene practices to avoid these hazards.

Emergency and First Aid Procedures:
Eyes – Flush with plenty of water for at least 15 minutes lifting eyelids to insure complete removal. Get immediate medical attention. Ingestion – (Unlikely, aerosol) If swallowed, call a physician or poison control center immediately. Do not induce vomiting unless instructed by a physician. Get immediate medical attention. Inhalation – Remove victim to fresh air. If not breathing, give artificial respiration, preferably mouth to mouth. Get medical attention. Skin – Wash with soap and water, rinse thoroughly. If irritation arises and persists, call a physician. Note: Contains petroleum distillates (<10%)

SECTION VII – Precautions for Safe Handling and Use

Steps to be Taken in Case Material is Released or Spilled -
Caution, slip hazard. Remove any residues with suitable cleaning agent. Wear protective gear as necessary. For small spills, wipe up promptly. For large spills, isolate traffic and ventilate area. Eliminate all ignition sources. Dike to prevent spread. Pick up with an absorbent material. Put in a suitable container for proper disposal. This product is toxic to fish.

Waste Disposal Method - Consult local, state and federal regulations. Do not puncture or incinerate container. Replace cap on empty can, wrap container in several layers of newspaper and dispose of in trash. Offer for recycling if resources are available.

Precautions to be Taken in Handling and Storing – Do not breathe vapor or spray mist. Remove contaminated clothing and wash before reuse. Avoid contamination of feed and foodstuffs. Vacate room after treatment and ventilate before reoccupying. Store in a cool (under 130 °F) dry location away from heat, sparks, open flame, and direct sunlight. Protect from freezing. Store at temperatures above 32 °F and below 130 °F.

Other Precautions – Follow label directions carefully. Keep out of reach of children. Do not deliberately concentrate and inhale vapors. Direct spray away from face. Replace cap when not in use. Do not use around ignition sources such as heat, sparks, open flame, static electricity, electric motors, welding arcs, etc. Do not puncture or incinerate container. Do not smoke while using. Do not use this product in or on electrical equipment due to the possibility of shock hazard. Vacate room after treatment and ventilate before reoccupying. Do not use around the elderly, infirm or patients.

SECTION VIII – Control Measures

Respiratory Protection (Specify Type) - Not usually necessary. Use with adequate ventilation. If PELs or TLVs are exceeded (see Section II), use an approved NIOSH/MSHA respirator.

Ventilation | Local Exhaust | Acceptable | Mechanical (General) | Special
--- | --- | --- | --- | ---
Acceptable | None
Special | Normal

Protective Gloves -
Not usually needed. If direct contact possible, impervious

Eye Protection -
Safety glasses or goggles (ANSI Z87)

Other Protective Clothing or Equipment -
Not usually needed. If direct contact possible, wear apron, boots, face shield, etc. as necessary.

Work/Hygienic Practices -
Normal. Wash thoroughly with soap and water before eating, drinking, smoking, using restrooms, etc.
