Material Safety Data Sheet
May be used to comply with OSHA's Hazard Communication Standard, 29 CFR 1910.1200. Standard must be consulted for specific requirements.

HEALTH: 2
REACTIVITY: 0
FLAMMABILITY: 1
PERSONAL PROTECTION: None

Identity (As Used on Label and List)
36401, 36425, 36405, 36455
Solitaire

SECTION I
Manufacturer's Name
ITW Dymon
Address (Number, Street, City, State, and ZIP Code)
805 EAST OLD 56 HIGHWAY
OLATHE, KANSAS 66061
Emergency Telephone Number
1-800-535-5053
Telephone Number for Information
1-913-397-9889
Date Prepared
April 3, 2000
Signature of Preparer (Optional)
Regulatory Dept.

SECTION II - Hazardous Ingredients/Identity Information

Hazardous Components  (Specific Chemical Identity, Common Name(s)) | CAS No. | OSHA PEL | ACGIH-TLV | Other Limits Recommended | % (Opt.)
--- | --- | --- | --- | --- | ---
*2-(2-Ethoxyethoxy)-ethanol | 111-90-0 | Not estab. | Not estab. | | 1 – 5 %
Zinc ammonium carbonate compound | 38714-47-5 | Not estab. | Not estab. | | 1 – 2 %

* This product contains 2-(2-Ethoxyethoxy)-ethanol (a glycol ether compound) and a zinc compound which are listed and may require reporting under SARA Title III Sec. 313 if used over the threshold reporting quantity. This information must be included in all MSDSs that are copied and distributed for this material.

TSCA: All ingredients are on the TSCA inventory or are not required to be listed on the TSCA inventory.

Any substance listed as hazardous by the States of California, Florida, Illinois, Michigan, New Jersey, Ohio, Pennsylvania or Texas is described above if known present in regulated concentrations.

SECTION III - Physical/Chemical Characteristics

Boiling Point
Initial | 212°F
Vapor Pressure (mm-Hg @ 70°F) | No Data
Vapor Density (AIR = 1) | Greater than one (1)
Solubility in Water | Dispersible
Appearance and Odor -
White to very light tan opaque liquid with an acrylic odor.

SECTION IV - Fire and Explosion Hazard Data

Flash Point (Method Used) | Flammable Limits | LEL | UEL
--- | --- | --- | ---
None to boiling point | No Data | No Data | No Data

Extinguishing Media -
Not usually necessary as this product does not readily support combustion. Use media appropriate for fire’s fuel source.

Special Fire Fighting Procedures -
Keep containers cool and vapors down with water spray. Prevent runoff from entering sewers and public waterways. Wear SCBA in chemical fires.
Unusual Fire and Explosion Hazards -
After water evaporates, residual solids in container may be combustible. Use water, foam, dry chemical or carbon dioxide.
SECTION V - Reactivity Data

Stability

Health Hazards (Acute and Chronic)

- Warning. May be harmful or fatal if swallowed. May cause eye and skin irritation. Maybe harmful if inhaled. May be absorbed through intact skin. Swallowing may cause liver or kidney damage. Overexposures may induce central nervous system effects. Follow good chemical hygiene when using this and other floor care products.

Carcinogenicity:

- NTP? None known
- IARC Monographs? No
- OSHA Regulated? No

Signs and Symptoms of Exposure

- Redness, tearing or burning in eyes. Redness, drying or cracking skin. Swallowing may cause nausea, vomiting, headache and stomach upset. Excessive inhalation of vapors may cause nausea, headache or dizziness.

Medical Conditions Generally Aggravated by Exposure

- Pre-existing skin disorders such as dermatitis may be adversely affected. Use good chemical hygiene practices.

Emergency and First Aid Procedures

Eyes - Flush with plenty of water for at least 15 minutes lifting eyelids to insure complete removal. Call a physician if irritation arises.

Ingestion - If conscious, drink plenty of water then induce vomiting. Never give anything by mouth to an unconscious person. Call a physician or poison control center immediately.

Inhalation - Get to fresh air. If breathing has stopped, qualified personnel should administer artificial respiration.

Skin - Wash thoroughly with soap and water. If irritation arises and persists, call a physician.

SECTION VII - Precautions for Safe Handling and Use

Steps to be Taken in Case Material is Released or Spilled

- Caution, slip hazard. Wipe up small spills promptly or use a mop. For large spills, isolate and ventilate area. Dike to prevent spread. Wear protective gear as necessary. Do not allow to enter drains, sewers or watercourses. Pick up with a vacuum or an absorbent material. Put in a suitable container for proper disposal.

Waste Disposal Method

Consult local, state, and federal regulations. Triple rinse empty container then offer for recycling, reuse, or reconditioning.

Precautions to be Taken in Handling and Storing

- Do not swallow. Wash hands thoroughly after using. Avoid contact with eyes, skin and clothing. Avoid inhaling vapors. Use with adequate ventilation. Protect from freezing. Store at temperatures between 32° and 120° F.

Other Precautions

- Follow label directions carefully. Keep out of reach of children. Keep container tightly sealed when not in use. Do not contaminate water, food or feed by use or storage.

SECTION VIII - Control Measures

Respiratory Protection (Specify Type)

- Not usually necessary. Use NIOSH/MSHA approved respirator if PELs or TLVs are exceeded.

Ventilation

- Local Exhaust: Not usually needed
- Mechanical (General): Yes

Protective Gloves - Not usually needed. If direct contact possible, wear impervious.

Eye Protection - Not usually needed. If direct contact is possible, wear goggles or approved safety glasses.

Other Protective Clothing or Equipment

- Not usually needed. If direct contact is possible, wear apron, boots, face shield, etc. as necessary.

Work/Hygienic Practices

Normal. Wash hands after use and before eating, drinking, smoking, using restrooms, etc.
