Material Safety Data Sheet
May be used to comply with OSHA's Hazard Communication Standard, 29 CFR 1910.1200. Standard must be consulted for specific requirements.

SECTION I
Manufacturer's Name
ITW Dymon

Address (Number, Street, City, State, and ZIP Code)
805 East Old 56 Highway

Olathe, Kansas 66061

Emergency Telephone Number
1-800-535-5053

Telephone Number for Information
1-913-397-9889

Date Prepared
December 22, 2000

SECTION II - Hazardous Ingredients/Identity Information

<table>

* This product contains Piperonyl butoxide which is listed and may require reporting under SARA Title III Sec. 313 if used over the threshold reporting quantity. This information must be included in all MSDSs that are copied and distributed for this material.

Any substance listed as hazardous by the States of California, Florida, Illinois, Michigan, New Jersey, Ohio, Pennsylvania or Texas is described above if known present in regulated concentrations.

SECTION III - Physical/Chemical Characteristics

Extinguishing Media - Not usually necessary as this product does not readily support combustion. Use extinguishing agent appropriate for fire's fuel source (i.e. carbon dioxide, dry chemical, foam, fog, etc.).
Special Fire Fighting Procedures - Use water spray to keep containers cool and vapors down. Do not allow runoff to enter sewers or public watercourses. Wear self-contained breathing apparatus in chemical fires.

Unusual Fire and Explosion Hazards - Aerosol container (pressurized) may burst if heated over 130° F.
SECTION V - Reactivity Data

Stability: Unstable

Conditions to Avoid: - Extreme heat, direct sunlight

X

Incompatibility (Materials to Avoid): - Strong oxidizing agents.

Hazardous Decomposition or Byproducts: - Carbon dioxide, carbon monoxide, smoke, soot and various organic oxidation by-products.

Polymerization: May Occur

Conditions to Avoid: - None known

X

SECTION VI - Health Hazard Data

Route(s) of Entry - Eyes?

Yes

Inhalation?

Yes

Skin?

Yes

Ingestion?

Yes

Health Hazards (Acute and Chronic): - Caution. Harmful if swallowed or absorbed through skin. Harmful if inhaled. May cause eye and skin irritation. Contents under pressure. Follow good chemical hygiene practices to avoid these hazards.

Carcinogenicity: None known

NTP? No

IARC Monographs? No

OSHA Regulated? No

Signs and Symptoms of Exposure: - Redness, drying or cracking skin. Redness and irritation of eyes. Irritation of nose and throat are possible.

Medical Conditions Generally Aggravated by Exposure: - Pre-existing skin and lung disorders may be adversely affected from overexposures. Follow good chemical hygiene practices.

Emergency and First Aid Procedures:

Eyes: - In case of contact, immediately flush eyes with plenty of water (at least 15 minutes). Obtain medical attention if irritation persists.

Ingestion: - Contact a physician or poison control center immediately. Inhalation: - Get to fresh air. If breathing has stopped, qualified personnel should administer artificial respiration.

Skin: - In case of contact, immediately flush skin with plenty of water (at least 15 minutes). Obtain medical attention if irritation persists.

SECTION VII - Precautions for Safe Handling and Use

Steps to be Taken in Case Material is Released or Spilled: - Caution, slip hazard. Wipe up small spills promptly with a towel or other absorbent material. For large spills, isolate traffic and ventilate area. Eliminate all ignition sources. Wear protective gear as necessary. Dike to prevent spread. Pick up on an absorbent material and put in a suitable container for proper disposal.

Waste Disposal Method: - Consult local, state and federal regulations. Do not incinerate (or puncture container). Wrap container and put in trash collection, then discard container if allowed by applicable statutes. Offer empty container for recycling if resources are available.

Precautions to be Taken in Handling and Storing: - Do not swallow. Wash thoroughly after handling. Avoid contact with skin and eyes (and clothing). Avoid breathing vapors or spray mist. Vacate premises after treatment and ventilate before reoccupying. Do not apply directly to food. See special label instructions for use around food and food processing equipment. Remove pets and birds, and cover fish aquaria before spraying. To avoid staining fabrics or surfaces, do not spray at close range. Vacate premises after treatment and ventilate before reoccupying.

Other Precautions: - Follow label directions carefully. Keep out of reach of children. Do not deliberately concentrate and inhale vapors. Direct spray away from face. Replace cap when not in use. Do not use around ignition sources such as heat, sparks, open flame, etc. Do not puncture or incinerate container. Do not smoke while using. Contents under pressure. Do not store near heat or open flame. Store in a cool (under 130°F) dry location away from heat, sparks, open flame and direct sunlight. Exposures to temperatures above 130°F may cause bursting.

SECTION VIII - Control Measures

Respiratory Protection (Specify Type): - Not usually necessary. Use with adequate ventilation. If PELs or TLVs are exceeded (see Section II), use an approved NIOSH/MSHA respirator. Follow label instructions carefully.

Ventilation: Local Exhaust - Not usually needed

Special Mechanical (General) - None

Other

Protective Gloves: - Yes, impervious if contact is possible

Eye Protection: - Yes, approved safety glasses (ANSI Z87) or goggles

Other Protective Clothing or Equipment: - Not usually necessary. If direct contact is possible, wear apron, boots, face shield, etc., as required.

Work/Hygienic Practices: - Normal. Wash thoroughly before eating, drinking, smoking, using restrooms, etc.
OR PROPERTY OR ANY OTHER INCIDENTAL OR CONSEQUENTIAL LOSS SHALL BE AVAILABLE.
